

2021 Regular Session

HOUSE BILL NO. 2

BY REPRESENTATIVE BISHOP

CAPITAL OUTLAY: Provides for the comprehensive Capital Outlay budget

1 AN ACT

2 To provide with respect to the capital outlay budget and the capital outlay program for state
3 government, state institutions, and other public entities; to provide for the
4 designation of projects and improvements; to provide for the financing thereof
5 making appropriations from certain sources; and to provide for related matters.

6 Be it enacted by the Legislature of Louisiana:

7 Section 1. The following sums or so much thereof as may be necessary are hereby
8 appropriated out of any monies in the state treasury from the sources specified, from federal
9 funds and self-generated revenues belonging to the state of Louisiana and/or collected by
10 boards, commissions, departments, and agencies thereof, all for making capital outlay and
11 for the purposes and in the amounts specified herein for the Fiscal Year commencing July
12 1, 2021, and ending June 30, 2022, subject to the conditions thereafter provided:

13 A project with funding payable from General Obligation Bonds Priority 1 indicates
14 that the funding for the project includes the reauthorization of funding which was previously
15 granted as a line of credit by the State Bond Commission in Fiscal Year 2020-2021. As used
16 in this Section, the term "general obligation bonds" means state general obligation bonds or
17 other evidences of indebtedness payable from the Bond Security and Redemption Fund. The
18 amount set forth in this Section opposite each project, or so much thereof as may be
19 necessary, is hereby appropriated and payable from the source of funding indicated;
20 provided, however, amounts appropriated and payable from federal funds may be
21 encumbered or expended only to the extent such amounts shall have been committed or

1 received. Pursuant to the provisions of R.S. 39:82, funds for planning, acquisition,
2 construction, and major repair projects appropriated by this Act may be retained until
3 completion of the project, even if no bona fide liability exists on the last day of the fiscal
4 year.

5 This Act shall constitute the comprehensive state capital outlay budget for the 2021-
6 2022 Fiscal Year. Projects set forth which are payable from the proceeds available from the
7 sale of general obligation bonds shall have the priorities as indicated. The Request for Line
8 of Credit form used by the attorney general and Bond Counsel in evaluating Louisiana
9 Constitutional, Internal Revenue Code, and applicable income tax regulations shall be filed
10 with the commissioner of administration, State Bond Commission, and state attorney
11 general. No general obligation bond cash lines of credit shall be granted to fund any lower
12 priority project prior to the granting of general obligation bond cash lines of credit to fund
13 all higher priority projects (the "general rule"), except as hereinafter provided. This
14 prohibition against funding a lower priority project shall not apply upon a showing of an
15 impossibility or impracticality either to proceed with all unfunded higher priority projects
16 or to proceed with the funding of such projects or any part thereof through the issuance of
17 general obligation bonds for any reason. Such showing shall be stated in reasonable detail
18 in a certificate or certificates signed by the state agency responsible for administering the
19 funding, and filed with the commissioner of administration and the State Bond Commission
20 (hereinafter referred to as "the Commission"). Upon a determination by the Commission
21 that proceeding with such a project or the funding thereof through the issuance of general
22 obligation bonds is impractical or impossible, the Commission may then proceed with the
23 sale of general obligation bonds or the granting of cash lines of credit without regard to the
24 priority of the unfunded projects determined to be impossible or impractical.

25 Upon recommendation by the state agency responsible for administering the funding,
26 if it is determined at any time that proceeding with the project or with the funding thereof
27 is no longer impossible or impractical, the State Bond Commission may rescind the
28 certificate of impossibility or impracticality and may proceed with the project or with the
29 issuance of general obligation bonds or the granting of cash lines of credit to fund the
30 project. Alternatively, the Interim Emergency Board (hereinafter referred to as "the Board"),

1 upon reviewing certificates as described above and determining that proceeding with such
2 projects or the funding thereof through the issuance of general obligation bonds is
3 impossible or impractical, may designate a lower priority for such projects. The Board's
4 determination and lower priority designation shall be submitted to the members of the
5 legislature for their approval in accordance with the provisions of Chapter 3-B of Subtitle
6 I of Title 39 of the Louisiana Revised Statutes of 1950. In accordance with the provisions
7 of Chapter 3-B of Subtitle I of Title 39 of the Louisiana Revised Statutes of 1950, whenever
8 at the written request of the appropriate legislators and agency, the Board determines that
9 an adjustment to a project description originally set forth in such capital budget adopted by
10 the legislature for a current fiscal year is necessary to correct a mistake in a project
11 description, clarify a description, change the scope of a description, or make any other
12 adjustment the Board deems necessary to implement the purpose of the project, such
13 adjustment shall become effective only upon the approval by majority vote of the elected
14 members of each house of the legislature in the manner provided for in Chapter 3-B of
15 Subtitle I of Title 39 of the Louisiana Revised Statutes of 1950.

16 If such approval is granted, notification by the chair or secretary of the Board of the
17 results of the balloting shall be transmitted to the State Bond Commission, which may then
18 proceed with the sale of general obligation bonds or the granting of cash lines of credit for
19 each change approved upon request of the commissioner of administration in accordance
20 with the general rule.

21 With respect to Priorities 1 through 5, a lower priority project may be moved to a
22 higher priority only upon a showing of an emergency or other cause not reasonably
23 anticipated by the legislature, which shall be stated in reasonable detail in a certificate signed
24 by the head of the appropriate department, political subdivision, or agency and filed with the
25 commissioner of administration and the Board. Upon a determination by the Board that such
26 project should be moved to a higher priority because of an emergency or other cause not
27 reasonably anticipated by the legislature, the Board shall designate a higher priority to the
28 project. The matter then shall be submitted to and be subject to the same approval by the
29 members of the legislature in the manner previously indicated in this Section. If such
30 approval is granted, notification by the chair or secretary of the board of the change of

1 priority shall be transmitted to the State Bond Commission, which then upon request of the
2 commissioner of administration, may proceed with the sale of general obligation bonds or
3 the granting of cash lines of credit in accordance with the general rule. As to projects within
4 a priority, the State Bond Commission acting on requests submitted by the commissioner of
5 administration shall determine when such project, or phases thereof, shall be funded. In
6 making such determination, the State Bond Commission shall consider the amount of
7 proceeds of general obligation bonds to be made available in light of money and capital
8 market conditions; the expenditure requirements of the project; the time required for
9 architectural plans and drawings, public bidding, and site acquisition and preparation;
10 availability of receipt of federal monies; litigation affecting the undertaking or completion
11 of a project; federal tax laws and regulations regarding the sale of municipal bonds; and
12 other items of a similar nature bearing upon the possibility or the necessity to commence a
13 project or any particular phase thereof.

14 Any other provision of this Act to the contrary notwithstanding, projects described
15 in Priority 5 of this Act shall not be moved to a higher priority except upon one of the
16 following conditions: (1) Funding is necessary to complete or additionally fund a project
17 located elsewhere in the Capital Outlay Act. Determination of such condition shall be made
18 by the head of the appropriate department or agency by means of a certificate to that effect
19 filed with the Interim Emergency Board, who shall, by mail ballot, request approval of such
20 change and if approved by a majority of each house of the legislature it shall be funded, or
21 (2) unless required by an emergency or other cause not reasonably anticipated by the
22 legislature, to be in accordance with procedures set forth in this Section. However, the State
23 Bond Commission may authorize a non-cash line of credit for any project in Priority 5 which
24 represents that portion of construction contracts which were let during a previous fiscal year,
25 or construction contracts which will be let during the current fiscal year, but which will not
26 require cash expenditures during the year. Such non-cash lines of credit, when combined
27 with previously sold bonds or with higher priority bonds or lines of credit, or with funds
28 appropriated from other sources, will provide sufficient appropriated funds to award
29 equipment or construction contracts. Contracts shall not be awarded without approval of the
30 division of administration.

1 Upon approval by the State Bond Commission, and subject to compliance with its
2 policies and procedures and the procedures set forth herein, a line of credit providing for the
3 use of funds in anticipation of the sale of general obligation bonds may be granted to the
4 appropriate administering agency or department from the Comprehensive Capital Outlay
5 Escrow Account, or if there is not a sufficient amount available in such account, from other
6 available state cash in the state treasury, for capital improvement projects for which bond
7 proceeds are appropriated by a current capital budget, prior to the actual issuance of bonds
8 for such projects, unless the attorney general advises that an impediment exists to the valid
9 issuance of the bonds on the date such line of credit is granted.

10 All bonds that are to be repaid, in whole or in part, by revenues generated by the
11 project shall be designated as "Reimbursement Bonds." The State Bond Commission shall
12 enter into such agreements as are necessary to provide that the agency or subdivision, whose
13 project is reimbursable, shall pay the bond debt costs into the Bond Security and Redemption
14 Fund. Such costs may be paid annually or at the end of the term of the bonds issued as
15 determined by the State Bond Commission.

16 Priority 1 general obligation bond funding shall be limited to:

17 (1) Projects and amounts which were previously authorized by Act 2 of the 2020
18 First Extraordinary Session of the Legislature; and which were granted cash lines of credit
19 by the State Bond Commission. The bonds to fund these projects were not sold in Fiscal
20 Year 2020-2021.

21 (2) The reauthorization of the portion of the outstanding Fiscal Year 2020-2021
22 Priority 5 Non-Cash Lines of Credit for projects which will require cash expenditures in
23 Fiscal Year 2021-2022 and therefore must be converted to Cash Lines of Credit in Fiscal
24 Year 2021-2022.

25 (3) Commitments made in the Higher Education Desegregation Settlement
26 Agreement.

27 Priority 2 general obligation bond projects are for the completion of plans and
28 specifications, land acquisition, site preparation, or for construction which will begin during
29 the fiscal year. It is presently anticipated that the listed projects will require the sale of
30 bonds or extension of lines of credit during the fiscal year after adoption of this Act.

1 Priority 3 general obligation bond projects are for the preparation of plans and
2 specifications, land acquisition, site preparation, or for construction and shall be limited to
3 funding for the portion of construction contracts which will not require cash expenditures
4 during the fiscal year. The projects in this category shall be considered future year projects
5 in the state's five-year capital outlay plan. It is presently anticipated that the listed projects
6 will not require the sale of bonds or extension of lines of credit during the fiscal year.

7 Priority 4 general obligation bond projects are for the preparation of plans and
8 specifications, land acquisition, site preparation, or for construction and shall be limited to
9 funding for the portion of construction contracts which will not require cash expenditures
10 during the fiscal year. The projects in this category shall be considered future year projects
11 in the state's five-year capital outlay plan. It is presently anticipated that the listed projects
12 will not require the sale of bonds or extension of lines of credit during the fiscal year.

13 Priority 5 general obligation bond funding shall be limited to funding for the portion
14 of construction contracts which will not require cash expenditures during the fiscal year.
15 These funds, when combined with previously sold bonds or with higher priority bonds on
16 lines of credit, or with funds appropriated from other sources, will provide sufficient
17 appropriated funds to award contracts. Non-cash lines of credit shall be required prior to the
18 award of these contracts.

19 In accordance with the cash management plan adopted pursuant to R.S. 48:251(D)
20 and the provisions of Act 161 of the 1998 First Extraordinary Session, the Department of
21 Transportation and Development is authorized to enter into contracts or agreements for
22 projects approved pursuant to the Highway Priority Program, Airport Construction and
23 Development Priority Program, Port Construction and Development Priority Program, and
24 Statewide Flood Control Program for projects bid and awarded, authorized, or commenced
25 during the fiscal year which do not require cash expenditures for the full contract or
26 agreement amount.
